### Description

#### **Consultation of new Part-21 AMC for small design and production organisations and Competent Authorities overseeing such organisations**

The Agency uses an accelerated rulemaking procedure for this part of the task (Art. 16 of [EASA MB Decision 18-2015](#)). Instead of consulting a Notice of Proposed Amendment, the Agency is seeking your feedback on the draft AMC, in this dedicated workshop.

Under rulemaking task RMT.0689 the Agency has developed a comprehensive set of new AMC for Part-21 Production Organisation Approval (POA), Design Organisation Approval (DOA) and the related competent authority oversight. This new AMC will allow a more product oriented and risk proportionate compliance showing, reducing administrative burden and overhead for both the applicant and the competent authority.

#### **The proposed AMC is applicable to:**

Aircraft not classified as complex-motor powered aircraft which are:

- aeroplanes of 2 730 kg maximum take-off mass (MTOM) or less; or
- rotorcraft of 1 200 kg MTOM or less, certified for a maximum of up to 4 occupants; or
- other ELA2 aircraft, including for example sailplanes and balloons.

Before the workshop, EASA makes the [draft AMC](#) available and also offers the possibility to make comments by using the [EU Survey tool](#) that you can access via this [link](#).

---

## Registration

If you are interested to participate in the workshop, please fill in the below “registration form” and send it to CT7-Workshops [at] easa.europa.eu (CT7-Workshops[at]easa[dot]europa[dot]eu) **no later than 1st June 2017**.

Please note that we are only able to host a limited number of participants. You shall receive a reply whether or not your registration can be confirmed. Only **confirmed participants** will be able to attend the workshop.
