[Conclusions and Q&As](#)

Description

The “Aircrew Training Conference (Advanced Approach to Pilot Training)” aims to present the recent initiatives in the Aircrew domain and support the implementation of OSD elements into pilot training for all interested parties.

We have invited leading experts and have prepared a multidisciplinary agenda (attached) that covers the above mentioned topics with most emphasis placed on the OSD part.

The conference will give the opportunity to exchange views with representatives from the Agency, competent authorities and industry to provide clarifications and share best practices.
