Description

A workshop on Crew Resource Management (CRM) open to EASA National Aviation Authorities will be held on August 29th and 30th, 2017 at EASA's Headquarters. The objective of the workshop is to exchange views on the training of inspectors dealing with CRM training.

The EASA Safety Risk Management process has identified Crew Resource Management (CRM) as the second most important human factors issue in the domain of aeroplanes Commercial Air Transport.

EASA Executive Director Decisions 2015/022/R and 2015/023/R introduced new AMC/GM on CRM Training which entered into force in October 2016. The Agency committed to continue

with a Safety Promotion Task in order to go more in depth, get a wider contribution and share methodologies as well as best practices on the implementation in practice of those CRM AMC and GM.
