Description

Start & end time of event
Day 1: 20/11/2017, 13:00 - 18:30
Day 2: 21/11/2017, 09:00 - 16:30

Description
EASA, European Aviation Safety Agency, in collaboration with ENISA, European Union Agency for Network and Information Security, will host the first ENISA training on cybersecurity in aviation on the 20th and 21st of November in Brussels.

The goal is to provide an overview of the cybersecurity threat landscape for aviation's information infrastructures, an introduction of the Network and Information Security Directive and to deliver the first ENISA training on Incident Handling, customised for the aviation sector. The main goal of the training it to inform aviation IT security experts on the latest cyber threats, on the handling of cyber incidents and provide a starting point for the challenges ahead.

The training is a customisation of ENISA trainings based on the 2016 ENISA report on threat modeling and security measures for airports and relevant stakeholders 'Securing smart airports'.

The target audiences are airports, air carriers, air traffic control and international organizations interested to train their cyber security professionals in incident handling.

Registration

The attendance to the training is free of charge.
If you wish to participate, please send an email to cybersec [at] easa.europa.eu before 15 October 2017, providing your name, organisation, and contact details.
As places are limited, successful registration will be confirmed by email after 15 October 2017.
