Konrad-Adenauer-Ufer 3
50668 Köln
Germany

[Directions to the Agency](#)

Description**Date & time**

12 April 2018 from 09.00 to 18.00

Description

The Maintenance & Production Department of the European Aviation Safety Agency is organising its 1st Airworthiness Standardisation Workshop.

This workshop will be held on Thursday, 12th April 2018, at the EASA Headquarters.

The objective of this workshop is to share experience, guidance and best practices related to the implementation of European Regulations in the field of Airworthiness (Part-21, Part-M, Part-T,

Part-145, Part-66 and Part-147). The workshop should promote a common understanding of the Regulations and align on related implementation issues.

The Agency already contacted the concerned NAAs and is keeping open the invitation to their staff working in the various fields of Airworthiness. It is particularly recommended that the team members involved in AIR EASA Standardisation Inspections attend.

We will publish a draft agenda in due time.
