European Union Aviation Safety Agency

FAQ n.45822

FAQs:

Medical fitness, Cabin Crew, Aircrew, Regulations

Question:

Is Cabin Crew Member required to carry his/her medical certificate when on duty?

Answer:

Reference: Regulation (EU) No 1178/2011 Aircrew, Annex IV Part-MED and ED Decision 2011/015/R are available on EASA website.

EU legislation does not contain any provisions on the carriage of a medical report when on duty. MED.C.030(a)(2) requires cabin crew members to provide the related information of their medical report or the copy of their medical report to the operator(s) employing their services. MED.C.030(b) requires the cabin crew medical report to indicate the date of the aero-medical assessment, whether the cabin crew member has been assessed fit or unfit, the date of the next aero-medical assessment and, if applicable, any limitation(s). Any other elements shall be subject to medical confidentiality in accordance with MED.A.015.

Cabin crew members are encouraged to carry their medical report or a copy while on duty to attest their medical fitness and limitation(s). The operator may also have procedures in place through which a cabin crew member’s medical report can be readily available upon request by a competent authority.
