Description**Date**

23/04/2018 - 27/04/2018

Description of event

EASA is pleased to host the bi-annual JARUS Plenary Meeting. NAA experts from all around the world will gather in Cologne along with the Stakeholder Consultation Body (SCB) representing the industry.

The following Working Groups will also meet during the Plenary week:

- WG 1 Flight Crew Licensing
- WG 2 Operations
- WG 3 Airworthiness
- WG 4 Detect & Avoid
- WG 5 Command, Control, & Communications
- WG 6 Safety & Risk Management
- WG 7 Concept of Operations

JARUS is a group of experts from the 56 National Aviation Authorities (NAAs) and regional aviation safety organizations. Its purpose is to recommend a single set of

technical, safety and operational requirements for the certification and safe integration of Unmanned Aircraft Systems (UAS) into airspace and at aerodromes. The objective of JARUS is to provide guidance material aiming to facilitate each authority to write their own requirements and to avoid duplicate efforts. More information at <http://jarus-rpas.org/>.
