Description

On 27th – 28th of November 2018 the next **High Level Conference on Drones** will take place at RAI Amsterdam. This time the conference will be hosted by the Dutch Ministry of Infrastructure and Water Management and set during the launch of the first [Amsterdam Drone Week](#) bringing together regulatory bodies and industry experts from all around the world.

We invite you to explore and discuss some of the following topics related to the development of a common European market for drones:

- The future drone market: How does it look like and how does it relate to the development of smart cities and smart mobility?
- The state of play of U-Space: What have we done so far and what has still to be done?
- The common European rules for drones operation: How do regulations help establishing a

common European market?

- The communication and safety promotion strategy: What is planned to raise awareness for the new European rules?

In addition to the conference programme meeting participants are invited to take part in a small competition with various educational institutes from The Netherlands. They can explore their latest developments related to UAS and vote for the most interesting and promising project.

Join us for this special event and explore at the same time the latest UAS technologies and developments showcased at the Amsterdam Drone Week.

For further details please go to www.conferenceondrones.com.
