European Union Aviation Safety Agency

1st OPTICS2 Workshop - Aviation Cybersecurity

Event

Category: Cybersecurity

Date:

05 Jun 2018 to **06 Jun 2018**

Location

EASA Headquarters

Konrad-Adenauer-Ufer 3
50668 Köln
Germany

Directions to the Agency

Description

Description

Cyber-attacks are relatively low cost and low risk for the perpetrator, but can be a very high cost for the targeted organisation and society. This workshop brings together a range of experts from industry and regulation to consider both existing and potential future cyber risks and identify a top 10 list of both urgent and mid-term research that is required to maintain a safe and secure air transport system, today and in the future.

Registration

Please register online, under the oversight of the coordinator of the OPTICS2 project, Deep Blue SRL.

Agenda available via 1st OPTICS2 Workshop on Aviation Cybersecurity website
