Description**Date**

Day 1, 19/09/2018 - 09:00 - 17:00

Day 2, 20/09/2018 - 09:00 - 17:00

Description

Since its first occurrence in 2004, the ETSO workshop has grown in popularity and attendance. It has become a regular forum for the worldwide community of ETSO/TSO manufacturers, installers and operators, where topics of common interest in the various fields of aviation

equipment are presented and discussed, aiming at updating participants, and getting their feedback on industry and authority initiatives concerning operational, design, manufacturing and regulatory matters with the common scope of fostering safety. Besides EASA, also FAA and TCCA representatives actively participate to the event, providing updates on their related activities and on cooperation/bilateral issues. Other CAA representatives may be present.

According to the feedback from the last ETSO workshop, the event will consist of a general part on day 1, covering topics of interest for all participants, like updates from Rulemaking, ADOA, foreign authorities, new tools (SEPIAC); and two split sessions on day 2, with more detailed discussions in the domain of avionics as well as seats/mechanical systems. Copies of all presentations held, as well as additional background material, will be made available on EASA website for download after the workshop.

Registration closed

Your contribution to the workshop

As to better prepare the workshop, we would like to get your questions, views and proposals in advance. Also if there are subjects that you, industry would like to present. We would also like to know about areas in which you see problems that should be addressed or areas where you need further information. We would kindly ask you to submit your questions or proposals not later than 15/08/2018 to ETSOworkshop [at] easa.europa.eu. This will allow us to prepare for the workshop.

Dedicated sessions 20/09/2018

The registered participants will receive after 5 September 2018 a mail with the request to specify which of the two sessions below they plan to attend on 20/09/2018:

- Mechanics

or

- Avionics

The presentations from the ETSO workshop 2018 will be downloaded in the next days also on this page.
