

Drone Workshop: UAS Regulatory Framework and Integration in the Airspace

Event Type: Workshop

Date:

12 Jun 2018 to 13 Jun 2018

Location

1 Aviation Dr,
Singapore 499867

Description

Date

12/06/2018 - 13/06/2018

Description

The Civil Aviation Authority of Singapore, the European Aviation Safety Agency, SESAR-JU and Eurocontrol are hosting a Workshop on UAS Regulatory Framework and Integration in the Airspace.

This workshop offers a unique opportunity to look at:

- How to integrate drones into the aviation ecosystem and protect citizens' safety, security, privacy and the environment
- Review different approaches for tackling the challenges and enabling the opportunities that drones provide
- Discuss the regulatory solutions, principles and best practices proposed in Europe
- Look at research initiatives and strategies underway to pave the way for a safe integration of drones into the airspace
- Exchange experience on developing regulatory frameworks for drones with other authorities in the Asia Pacific region

Registration

If you want to participate please contact Ms Raquel Sanz – raquel.sanz [at] easa.europa.eu.
