European Union Aviation Safety Agency

FAQ n.65380

FAQs:

Supplemental Type Certificates (STC) , Applications for product certification/validation of foreign certificates, Certification of products and organisations

Question:

On EASA STC certificates, the following statement “or later revisions of the above listed documents approved by EASA.” is below the list of “Associated Technical Documentation”. Are documents approved afterwards using a DOA privilege (e.g. minor change approval) covered by that statement?

Answer:

Yes, the statement for “later revisions” “approved by EASA” is covering both cases:

-documents approved with EASA direct involvement
-documents approved by a Design Organisation holding a DOA with the appropriate scope and privileges as per Part 21
