

Regional workshop in The Netherlands on Part 66 as well as on Part-M for aircraft involved in general aviation

Date:

30 May 2006

Description

CAA Netherlands

The Netherlands

One of several Part-145/Part-M/Part 66 workshops organised locally throughout Europe during 2006. Hosted by CAA Netherlands and jointly organised with EASA. The objectives of this presentation are to discuss issues surrounding the implementation of Part-M in Europe, to exchange views and to facilitate personal contacts between stakeholders and EASA. It will be general aviation orientated (non complex aircraft used for non commercial activities). Some time will be dedicated to the probable consequences on Part 66 (licences) and to the rulemaking program in progress
