

'The Future of Design Organisation Approvals' Workshop

Date:

07 Nov 2006

Description

Dassault Aviation

Saint-Cloud, Paris, France

Room 'Rafale'

The general objective of this workshop is to discuss the basic concepts and procedures governing the issuance of a Design Organisation Approval (Part 21 Subpart J) and how these rules could be further developed to align with future Industry needs. The workshop will build on previous work, including the Agency's dedicated questionnaire to industry on this subject, and will provide industry with a further opportunity to influence the direction being taken.
