

OEB/OSD Workshop

Date:**31 May 2012**

Description

Meeting Room 04.049

Starting 09h30 Ending 16h30 In light of the future adoption of the EASA opinion amending Regulation 1702/2003 (Part-21), to include the Operational Suitability Data (OSD) concept and, in order to provide information on the current status of the regulation process, the EASA Certification Directorate, in close cooperation with the Rulemaking Directorate, is organising an OSD workshop for the European National Aviation Authorities only. The intent is to present the operational elements which will be included in all future Type Certificate Data Sheet for new aircraft and aircraft still in production when OSD will be implemented, as part of the OSD and to give an update on the regulatory process including the technical aspects leading to the adoption of the OSD by the European Commission. **This event is targeted at representatives of Civil Aviation Authorities of the Member States and limited to two representatives per CAA. Registration** All European Civil Aviation Authorities should have received an invitation letter to take part in the event. If this is the case and you would like to register, please send an e-mail to Ms Astrid Klinger-Krey (astrid .point. klinger-krey .at. easa .point. europa .point. eu) by 16 May 2012, note that your registration will be validated through a confirmation e-mail.
