[Workshop on Cabin Crew and Cabin / Passenger Safety - Presentations](#)

Description

The objective is to provide all interested stakeholders with information on the new EU rules, namely the Aircrew Regulation and Air OPS Regulation, as well as on the on-going and future rulemaking, standardisations and certification activities, that are relevant to cabin crew and cabin/passenger safety. This will also be an opportunity for all concerned to meet and exchange views and experience, and for the Agency to present how cabin crew and cabin safety issues are dealt with within the Directorates of Rulemaking, Standardisation and Certification.
