Description**Date & time**

18/06/2019, 09:30 - 17:00

Description

This info session will be a full-day session primarily for national aviation authorities (NAA) dedicated to the implementation of the UPRT requirements introduced by Regulation (EU) 2018/1974 (amending Regulation (EU) No 1178/2011).

The objectives of this event are:

- to present and explain both background and content of the new UPRT requirements to NAAs;
- to present on how to ensure undertaking compliance with the new UPRT requirements;

- to provide practical examples of how to establish a UPRT programme and deliver the training; and
- to share best practices on how to perform the appropriate oversight.

The outcome of this discussion should allow NAAs to support implementation of the new UPRT requirements on time and in a standardised way.

In order to facilitate the interpretation of inspector requirements when pilot skill are request EASA has published the following guide: [Practical guide - Assigning pilots to oversight tasks](#)
