

## U-space workshop 2019

### Event

**Type:** Workshop

### Date:

**14 May 2019 to 15 May 2019**

---

### Location

#### EASA Headquarters

Konrad- Adenauer-Ufer 3

50668 Köln

Germany

More information:

- [Directions to the Agency](#)
- [Corporate hotel rates in Cologne](#)

---

### Event Materials

#### Documents

[Presentation - U-space Regulatory Framework Workshop 2019](#)

[Discussion Paper - U-space Regulatory Framework Workshop 2019](#)

[Summary of Conclusions - U-space Regulatory Framework Workshop 2019](#)

---

### Description

#### Date & time

14/05/2019, 09:30 - 16:30, for Member States' Representatives

15/05/2019, 09:30 - 16:30, for Industry Representatives

## Description

The rising number of UAS operations in the European airspace poses a safety issue: how to ensure safe drone traffic management and how to integrate drones safely into the existing air traffic environment? The airspace integration of such UAS aircraft constitutes a major challenge.

The conclusion of the High Level Conference on Drones in Amsterdam on 28 November 2018 urged the European Commission and EASA, in close cooperation with Member States and stakeholders, to develop an institutional framework for a competitive U-space services market and how drones need to be operated in the Single European Sky.

As an immediate follow-up, EASA, together with the European Commission, has developed a preliminary draft regulatory framework containing high-level safety requirements on the establishment of U-space to enable competent authorities to set performance requirements, including environmental objectives, needed to satisfy traffic density and complexity of operations, setting high level requirements for the U-space services and service providers certification and that lays the foundation for innovative U-space services.

Specific topics that are expected to be raised during the workshop are: the interface with the current ATM environment in the U-space (airspace classification), the roles and responsibilities of the U-space actors, the types of services that may be provided, etc.

The aim of this workshop is to present this draft regulatory proposal, discuss about the principles that will govern U-space and consult with the stakeholders.

The workshop is spread over two days, to address different stakeholder groups.

- Member States' representatives - Day 1, 14/05/2019
- Industry representatives - Day 2, 15/05/2019

## Registration

Please email to [ken.engelstad \[at\] easa.europa.eu](mailto:ken.engelstad@easa.europa.eu)

([ken\[dot\]engelstad\[at\]easa\[dot\]europa\[dot\]eu](mailto:ken[dot]engelstad[at]easa[dot]europa[dot]eu)) to request registration to the event with the following information:

- Indicate if you are Member State representative (day 1) or an Industry representative (day 2)
- First & last name
- Name of organisation
- email and phone number

Deadline for registration will be 18/04/2019. EASA will review all requests and will issue confirmations to participants by 22/04/2019
