**Description****Date & time**

30/10/2019, 08:30 - 17:00

31/10/2019, 08:30 - 12:15

**Description**

On 3 June 2019, the European Commission has published [Commission Regulation \(EU\) 2019/897](#) amending Regulation (EU) No 748/2012. This amendment incorporates the changes proposed by EASA through the following documents:

- Opinion 06/2016 'Level of Involvement',

- Opinion 01/2017 'Maintenance check flights', and
- Opinion 09/2017 'Implementation of the CAEP/10 amendments on climate change, emissions and noise'.

The amount of Part 21 points affected is rather significant and, as a consequence, many changes will have to be implemented, in particular by design organisations.

In order to ensure a smooth implementation, EASA has organised 5 events during which EASA will explain the amended rules and the expected impacts to design organisations. EASA will also describe acceptable means to comply with the new requirements.

Your organisation is invited to attend one of these 5 events to familiarise with the coming changes.

### **List of events**
