European Union Aviation Safety Agency

FAQ n.96123

FAQs:

DAT, Air Traffic Management (ATM) / Air Navigation Services (ANS), Regulations

Question:

Is it possible for a legal entity to define two independent organizations, each dealing with specific Database with separate management processes?

Answer:

Usually an organisation (= a legal entity) is certified, while the scope of services, for which that organisation/legal entity is entitled to provide services are listed in the attachment to the service provider's certificate. However, it is up to the organisation in question to organise its application(s) and the demonstration of compliance for the various services. It should be noted that the potential parallel applications would result in parallel certification and subsequently continuous oversight processes.
