**Description**

Since 26 May 2014 EASA has the mandate to authorise third-country operators (TCO) for flights to Europe. This technical authorisation issued by EASA has become a pre-requisite for TCO applying for commercial traffic rights with EASA Member States. On 18 June 2019, EASA holds the 5th workshop on the TCO Authorisation process for EASA Member States. The main purpose of the venue is to inform Member States on new developments in the TCO process, to strengthen communication and cooperation within the network of the Member State focal points and to discuss practical issues and problems on working practices.

**Registration**

The participation in this Forum is limited to all focal points nominated by the EASA Member States
