

## EASA - Nacht der Technik 2019

**Date:**

28 Jun 2019

---

**Location****EASA Headquarters**

Konrad- Adenauer-Ufer 3  
50668 Köln  
Germany

---

**Description**

For the 5th time in 10 years EASA will again participate in the Cologne city event “Nacht der Technik” taking place on Friday, 28 June 2019 from 18:00h– 24:00h. True to the motto “see and understand technology” more than 50 Cologne based companies open their doors to the general public. For EASA it is a great opportunity to present the Agency’s activities especially to young European citizens.

This year we will have a special cooperation with **ESA (European Space Agency)** and the **EAC (European Astronaut Centre)** who will display interesting interactive exhibits together with us here at EASA Direktion.

Please reivew the programme and all information on the [“Nacht der Technik”](#) (information in German only).

**NOTE:** Tickets must be purchased ahead of the event, please review the [information on how to buy tickets](#) ahead of time.
