Description

Safety is more than a priority, it is a core value at the heart of our industry. As we head towards the summer season, we encourage everyone involved in Commercial Fixed Aviation to join our EASA Safety Week Webinars to hear about the top safety challenges across the different safety challenges, risks and mitigations that the industry is facing this year.

Listen to EASA and industry experts give their thoughts on safety, share experiences and highlight what they are doing to ensure safe and effective operations.

Register at the link below and select the webinar sessions you would like to attend. Priority until 1 April 2024 will be given to international organisations and also authorities and organisations based in the EASA Member States. Youtube links as a fallback option will be available closer to the time.

To submit your questions before the event, go to Sli.do and use event code: #SW2024 and passcode: xyckjx

Agenda
