

European Union Aviation Safety Agency

FAQ n.119242

FAQs:

[I build my own drones \(privately built\) 'specific' category](#), [Specific category](#), [Drones \(UAS\)](#),
[Regulations](#)

Question:

Can my drone operate in the 'specific' category?

Answer:

Privately built drones of any weight can be operated in the 'specific' category, if included in the operational authorisation issued by the National Aviation Authority.
