

FAQs:

[Development Assurance for Software or Hardware](#), [Air Traffic Management / Air Navigation Services \(ATM/ANS\) ground equipment](#), [Regulations](#)

Question:

Did I understand correctly that the software assurance level (SWAL) assignment and stating that the equipment is safe for use is moved to design or production organisations (DPOs)? I got that impression from previous sessions and disagree since safety (as security) depends on the operational usage of the equipment. What is your opinion?

Answer:

See answer to FAQ '[Who is going to define softwares / software assurance level \(SWAL\) requirements for a particular ATM/ANS system? EASA, ANSP, ...?](#)'.
