

FAQ n.19576**FAQs:**

[Applications for TCO a Authorisation](#), [Third Country Operators \(TCO\)](#), [Regulations](#)

Question:

How much in advance should an application for TCO authorisation be submitted before the intended starting date of our EU operations?

Answer:

TCO.300 (b)(1) requires the application at least 30 days before the intended starting date of operation. Therefore, it is highly recommended that you submit the application well in advance of the intended operation.

ART.200 requires EASA to complete its initial assessment within 30 days after all documents pursuant to TCO.300(c) and (d) have been submitted. Furthermore, under ART.200(b), EASA may need to conduct a further assessment, and it may decide to invite operators for a meeting or to perform an on-site audit. In this case, the TCO Authorisation process can take several months, especially when the technical assessment results in findings that have to be closed before EASA can issue the authorisation.
