

FAQs:

[What I need to care about: “At all times”, Passenger Health Safety - COVID-19, Passengers](#)

Question:

What are ‘very high-risk countries or areas with community circulation of Variants of Concern (VOCs)’ and where can I get information?

Answer:

The European Commission has launched a website called [‘Re-open EU’](#), with up-to-date information on the travel and health situation for European countries.

You can also consult the [‘SARS-CoV-2 variants dashboard’](#) updated and maintained by the European Centre for Disease Prevention and Control (ECDC) for more information.

Otherwise contact the relevant authorities in the country of departure and arrival.
