

**FAQs:**

[EASA as competent Authority](#), [The Agency](#)

**Question:**

**Does EASA deal with airports?**

**Answer:**

The EASA's remit has been expanded to the rulemaking and standardisation of aerodrome safety and ATM. This change is based on the amending Regulation (EC) No 1108/2009 to Regulation (EC) No 216/2008. For details on the work in this area please look at the pages for [ATM](#) and [Aerodromes](#) and the relevant [FAQ](#) section.
