### AMC1 ML.A.501(a)(ii) Classification and installation

#### EASA FORM 1 OR EQUIVALENT

A document equivalent to an [EASA Form 1](#) may be:

[...]

- (i) a 'declaration of maintenance accomplished' issued by the person or organisation that performed the maintenance, as specified in point ML.A.502(c).

### GM1 ML.A.502(c) Component maintenance

A 'declaration of maintenance accomplished' is a certificate prepared in any shape/form by the person or organisation that performed any maintenance on the component covered by the certificate and subject

to conditions in ML.A.502(c). This person or organisation does not need an approval to perform maintenance in accordance with Regulation (EU) No 1321/2014. In order for the component to be eligible for installation with a 'declaration of maintenance accomplished', this declaration, together with other records, should allow the determination that the component was first installed as 'new', as a component referred to in ML.A.502(c). Such a component should not be installed in an aircraft if there is information on the certificate which is not readable or not understandable or states that the component is not in a satisfactory condition for operation.
