Latest Meeting and Activities Summary

- MPIG calls & Meeting:
 - Monthly / bi-monthly conf calls
 - Sep 24-26, Face2Face hosted by Airbus Hamburg, Germany

Face2Face Meeting Agenda

- 2025 May IAM planning
- WG Briefings
- CIP Review
- CPCP reporting
- Definition update to Operational check and Functional check
- Assessment of High Voltage wiring
- Assessment of flexing wiring
- ICA ARC update
- How do you optimize lubrication and servicing tasks without findings
- Safety Envelope Hypothesis for MSG-4.pptx (airlines.org)
- Initial Application of Neural Networks in Civil Aircraft Structural MSG-3 Analysis.pptx (airlines.org)

Key Performance

- Very **stable** and **active MPIG member society**, which is highly appreciated.
- MPIG is spending a **significant effort in reviewing CIPs proposed** by the industry and Policy Board, including creation of sub-working groups.
- MPIG has **strengthened** the collaboration **and involvement to the SAE committee** to ensure **two-ways consistency** on A4A/PB (MSG-3/IMPS) and SAE deliverables.
- PB contribution to the **SAE G-38 “Automation of Aircraft Inspection”** activities would be appreciated

Key Performance

- **Development of MSG-4** is definitely a **long term exercise**, requiring a **significant effort** from all contributors. **PB early involvement is a key success factor.**
- **Impact and deployment on operators level** of all changes introduced by the MPIG/PB via MSG-3/IMPS changes has to be **thoughtfully evaluated.**
- **MPIG very much appreciates** the open and direct **exchange with the Policy Board**, which is seen as the backbone and prerequisite for goal-oriented discussions.
