

FAQs:

[Part 21, Supplemental Type Certificates](#)

Question:

What is the minimum amount of 'DOA Holder Performance' to not be always at the bottom of the scale in the matrix?

Answer:

To obtain a higher DOA performance, the applicant should strive to obtain a higher rating by EASA experts and PCMs during certification projects considering:

Project planning and communication

Applicable requirements and means of compliance

Compliance documents

If the DOA is newly established, or in the case of a very low number of applications submitted to EASA, the DOA performance will be assessed as unknown/low.
