

## Training requirements in the 'open' category

### Who issues the remote pilot competency certificate for the 'open' category and how long is it valid for?

#### Answer

For the 'open' category or standard scenarios, the National Aviation Authority is responsible for issuing the certificates. A certificate for Remote Pilot competency **is valid for 5 years**. If the revalidation is conducted before the certificate expires, the remote pilot may attend a seminar provided by the National Aviation Authority or by an entity recognised by it, otherwise competencies need to be re-demonstrated.

### Which training I need to fly my drone in the open category?

#### Answer

The type of training required depends on the type of drone you use.

A transitional period **until December 31, 2023** applies, and each EASA Member State may define the appropriate remote pilot training requirements according to **the following table**:

# WHAT TYPE OF DRONE CAN I FLY?

Applicable until 01 of January 2014

Operation		Drone Operator / pilot			
Max Take off mass	Subcategory	Operational restrictions	Drone Operator registration?	Remote pilot qualifications	Remote pilot minimum age
<b>&lt;250g</b> 	<b>A1</b> <b>Not over assemblies of people</b> (can also fly in subcategory A3)	<b>Operational restrictions on the drone's use apply</b> (follow the QR code below)	<b>Yes</b> No if toy or not fitted with camera/sensor 	Read user's manual	<b>No minimum age</b> (certain conditions apply)
<b>&lt;500g</b> 			<b>Yes</b>	<b>Check out the QR code below for the necessary qualifications to fly these drones</b>	<b>16</b>
<b>&lt;2kg</b> 	<b>A2</b> <b>Fly close to people</b> (can also fly in subcategory A3)				
<b>&lt;25kg</b> 	<b>A3</b> <b>Fly far from people</b>

## Remote pilot training as from 1 January 2024

The training requirements applicable as from January 1, 2024 are described below. However, most of the EASA Member States already offer the training listed below. In this way, you can already today receive a certificate according to the EU regulation. So, if you receive from an NAA of an EASA Member State one of the certificate of training with the EASA logo as shown below, you may already use it to operate your drone in the 'open' category in all EASA Member States. The training and exams can be conducted in an EASA Member State of your choice.
