

FAQ n.19251**FAQs:**

Overview of the Recruitment process , Recruitment

Question:

What should I do if I encounter technical problems while submitting my application via the e-recruitment tool?

Answer:

Please note that the browser does not allow the use of any special characters such as '<> ; : ' in any part of the application. Therefore, you should avoid using any special characters while applying.

If however you still encounter technical issues, you are responsible to notify EASA as soon as possible and within the application period, by sending an e-mail to recruit [at] easa.europa.eu with a description of the problem and a screenshot of the error message. Any such communication after the closing date cannot be considered and your application will be excluded from the selection process.
