

FAQ n.19509

FAQs:

Aerodromes, Aerodromes (ADR), Regulations

Question:

ADR.8 Safety Management System (SMS) for aerodrome operators: are the EASA rules regarding this area the same as those required by ICAO in Annex 19?

Answer:

In line with ICAO Annex 19, the European rules for aerodromes require that aerodrome operators put into place and maintain a management system, which contains a system to manage safety (SMS). This reflects the need to integrate the various sub-systems used for the management of the different activities of an aerodrome organization (e.g. management of aeronautical data and related activities).

The relevant provisions on the management system of aerodrome operators may be found in the management requirements contained in Subpart D of Annex III of Regulation (EU) No 139/ 2014 (Part ADR.OR), as well as in the related acceptable means of compliance and guidance material. They reflect the Annex 19 requirements and will be updated in line with updates to Annex 19.
