

FAQs:

Applications for TCO a Authorisation, Third Country Operators (TCO), Regulations

Question:

Can you explain the steps involved in the TCO application process, beginning with how the carrier should initiate contact to apply, through to the issuance of the TCO authorisation?

Answer:

- 1. The operator should follow the process published on the EASA website and submit its administrative TCO application form (TCO.300(a)(b)(c)).
- 2. Once EASA has received the administrative application and has determined that the operator is eligible to apply, the operator receives log-on credentials to the web-based TCO software application.
- 3. Once logged-on to the web-based TCO software application, the operator completes an electronic questionnaire and uploads specific operational documents as requested by the Agency (TCO.300(d)).
- 4. EASA then evaluates all the submitted information and decides if a further indepth assessment is necessary (ART.200).
- 5. As soon as the assessment is successfully completed and any non-compliance finding that may have resulted from the assessment has been closed, the operator will receive its TCO authorisation document and associated technical specifications.
