

FAQ n.21853**FAQs:**

[Acceptance of applications from foreign design organisations](#), [Design Organisations](#)

Question:

I am a foreign applicant for a Type-Certificate (including post TC changes and repairs). What conditions do I need to meet?

Answer:

EASA will grant the approval only if the initial approval from the SoD has been issued already.

Furthermore, a Bilateral Aviation Safety Agreement (BASA) with the concerned third country shall be in place, covering:

- Initial certification,
- Continuing airworthiness (CAW), and
- Production.

A Design Organisation Approval (DOA) is not required and will not be issued by the Agency.
