European Union Aviation Safety Agency

FAQ n.21890

FAQs:

Supplemental Type Certificates (STC) , Applications for product certification/validation of foreign certificates, Certification of products and organisations

Question:

What is the procedure for validations of FAA STCs classified as basic?

Answer:

Application for Supplemental Type Certificate FO.CERT.00033

A fast track procedure is in place for validations of FAA STCs classified as basic. According to the revision 6 of the Technical Implementation Procedure (TIP), basic STCs are accepted by EASA without further technical review. However, the issuance of the EASA STC can take place only **after** the FAA STC has been issued and the complete technical data package has been submitted to EASA including the FAA concurrence letter containing the classification of basic.
