

# FAQs:

Supplemental Type Certificates (STC) , Applications for product certification/validation of foreign certificates, Certification of products and organisations

## **Question:**

On EASA STC certificates, the following statement "or later revisions of the above listed documents approved by EASA." is below the list of "Associated Technical Documentation". Are documents approved afterwards using a DOA privilege (e.g. minor change approval) covered by that statement?

#### **Answer:**

Yes, the statement for "later revisions" "approved by EASA" is covering both cases:

- -documents approved with EASA direct involvement
- -documents approved by a Design Organisation holding a DOA with the appropriate scope and privileges as per Part 21
