[Understanding the 'specific' category](#), [Specific category](#), [Drones \(UAS\)](#), [Regulations](#)

**Question:**

**How do I determine I fall under the 'specific' category?**

**Answer:**

A drone can be operated in the 'in the 'specific' or the 'certified' category, when it does not meet the requirements laid out under the open category. See FAQ - [How do I determine I fall under the 'open' category?](#)
