Description

How do we model the path for the future? How can we ensure safety while considering sustainability? What actions are we taking to manage and further develop a safe, modern and sustainable aviation system?

This year's conference will gather senior aviation professionals from regulators, manufacturers, airlines and associations from all over the world to discuss global aviation safety and sustainability topics from the perspective of both, the regulators and industry.

Agenda

Registration

16/05/2023: This event is **FULLY BOOKED** and no further registration is possible. We have a waiting list in operation, however this is also full. Thank you for your understanding.

Accommodation & Travel
