

EASA Safety Week 2023

Online

Organised by: EASA

Date:

30 May 2023 to 02 Jun 2023

Description

EASA Safety Week is free of charge for the Commercial Fixed Wing Aviation Community and will take place from 30 May to 2 June 2023.

The theme this year is “No Compromise on Safety! - Are you Ready, Resilient and Responsive enough for the anticipated challenges this summer?” Throughout the summer campaign and Safety Week specifically we will focus on the following main themes:

- **Ready:** Having enough competent people and all the resources to manage risks effectively so that you can ensure safe and effective operations.
- **Resilient:** You are prepared for any operational challenges and external threats by not pushing the boundaries of the rules and being on guard for risk transfer.
- **Responsive:** Having the mindset to encourage collaborative safety conversations and then reacting positively and quickly to changing situations.

There will be 7 sessions across the week starting with a Cross Domain Session and then with different sessions for each operational domain. Please register for all session individually. WebEx priority will be given to authorities and operational organisations from the EASA Member States.

Questions before and during event

Go to [Sli.do](https://sli.do) and use the code #EASASummer2023 and passcode oowwqa – please ask your question in the relevant domain section.
