

FAQs:

[Part-NCC/NCO](#), [Air Operations](#), [Regulations](#)

Question:

Why are non-commercial operations treated in two Parts, i.e. Part NCC (non-commercial with complex motor-powered aircraft and a Part NCO (non-commercial with other-than-complex motor-powered-aircraft)?

Answer:

The rules concerning non-commercial operations are developed separately for complex motor-powered aircraft (MPA) and other-than-complex MPA because it does not make sense to have the same requirements apply to operations with an Airbus 320 for example and a Cessna 172. This way, the principle of proportionality of rules is preserved.
