

European Union Aviation Safety Agency

FAQ n.136289

FAQs:

[Common Issues — Restrictive measures Russia, EU restrictive measures against Russia](#)

Question:

We understand that following evaluation of the terms “technical assistance” and “other services” as mentioned in the Sanctions Regulations, EASA has suspended certificates issued to organisations in Russia. Is this interpretation also applicable to approvals and certificates issued by EU Member States in the same way?

Answer:

These definitions have the same meaning in all EU Member States, the Sanctions Regulations are directly applicable therein. It is the exclusive prerogative and responsibility of the Member States to assess and decide, on a case-by-case basis, on adequate actions to effectively implement the Sanctions Regulations.
