Description

The Aviation Non-CO₂ Expert Network (ANCEN) was established in 2024 to facilitate a coordinated approach across a wide range of relevant stakeholders (e.g. scientific community, academia, aircraft manufacturers, aircraft operators, fuel producers, air navigation service providers (ANSPs), non-governmental organisations (NGOs), regulators, analysts, and policymakers) in order to provide objective, timely, common, and credible technical advice.

The ANCEN members will gather at the premises of the European Union Aviation Safety Agency (EASA) in Cologne for the Annual Plenary Meeting of the Network, to review the

progress during the first year of activity and agree on the Work Programme for Year 2.

For more information, please visit the [ANCEN Network's webpage](#).

The [ANCEN project](#) is funded from the European Union's Horizon Europe Research and Innovation Programme.

Registration

The event is on invitation only as participation is restricted to ANCEN members.
