

Check the label on your drone if it has this mark

Flying a Drone

Have fun | Be responsible for safety

DO

Make sure you are adequately insured

Check your drone before each flight

Before each flight, check the limitations of the area where you want to operate, as defined by the National Authority of that country, and respect them

Keep the drone in sight at all times

Maintain a safe distance between the drone and people, animals and other aircraft

Operate your drone within the performance limitations defined in the instructions provided by the manufacturer

Inform your national aviation authority immediately if your drone is involved in an accident that results in a serious or fatal injury to a person, or that affects a manned aircraft

DO NOT

Do not make changes to the drone, unless approved by the manufacturer

Do not fly higher than 120 m from the ground¹

Do not fly near manned aircraft

Do not fly in the proximity of airports, helipads, areas affecting public safety or where an emergency response effort is ongoing

Do not fly over sensitive or protected sites (prisons, military bases, power plants, etc.)

Do not fly over large groups of people

Do not take photographs, videos or sound recordings of people without their permission. Respect people's privacy

Disclaimer: This document is a working document and is provided for information only. It is therefore subject to change and does not commit or represent EASA's decision. The final version of this awareness leaflet will be published as soon as the corresponding ED Decision is published and in force.

Flying a Drone

Have fun | Be responsible for safety

- You need to be registered and to pass an online test
- Display your registration number on the drone and upload it onto the e-identification system

DO

Make sure you are adequately insured

Check your drone before each flight

Make sure the electronic identification and geo-awareness system of your drone is up-to-date

Before each flight, check the limitations of the area where you want to operate, defined by the National Authority of that country, and respect them

Familiarise yourself with the area where you want to operate your drone

Check the weather conditions

Keep the drone in sight at all times

Maintain a safe distance between the drone and people, animals and other aircraft

Operate your drone within the performance limitations defined in the instructions provided by the manufacturer

Inform your national aviation authority immediately if your drone is involved in an accident that results in a serious or fatal injury to a person, or that affects a manned aircraft

DO NOT

Do not make changes to the drone, unless approved by the manufacturer

Check the label on your drone if it has this mark

Flying a Drone

Have fun | Be responsible for safety

- You need to be registered and to pass an online test
- If you intend to fly close to people, you need to pass a theoretical test in an entity recognised by the national aviation authority
- Display your registration number on the drone and upload it onto the e-identification system

DO

Make sure you are adequately insured

Check your drone before each flight

Plan your flight

Make sure the electronic identification and geo-awareness system of your drone is up-to-date

Before each flight, check the limitations of the area where you want to operate, defined by the National Authority of that country, and respect them

Familiarise yourself with the area where you want to operate your drone

Check the weather conditions

Keep the drone in sight at all times

Maintain a safe distance between the drone and people, animals and other aircraft

When flying close to people, activate the low speed mode and keep a horizontal distance from them of at least the height of the drone (1:1 rule), but never less than 5m

Operate your drone within the performance limitations defined in the instructions provided by the manufacturer

Inform your national aviation authority immediately if your drone is involved in an accident that results in a serious or fatal injury to a person, or that affects a manned aircraft

DO NOT

Do not make changes to the drone, unless approved by the manufacturer
