

Actions and considerations for the Agency:

- to provide written answers to all questions, where possible.
- to consider developing further guidance material to support implementation of OSD.
- to consider ways to simplify the dissemination process of the OSD data including any relevant updates.
- to align the wording in the Aircrew Regulation and in the OPS Regulation in due course.
- to review its process to address relevant identified inconsistencies between OSD and Aircrew/Air Ops.
- to consider establishing a list of applicable OSD, including Cabin Crew.
- to consider reviewing the OSD process to ensure that the approach used follows the latest amendments and concepts in the Aircrew and Air Ops regulations.
