

EASA

TERMS OF REFERENCE

TOR Nr: 66-007

Issue: Final

Date: 8 April 2005

Regulatory reference: Part-66 Appendix 1

Reference documents:

1.Subject: Question databank

2.Problem / Statement of issue and justification; reason for regulatory evolution (regulatory tasks):

Stakeholders are asking for a question databank for Part-66. Such a databank would standardise the examination level for a Part-66 licence in all Member States. Work on a Part-66 question databank was already started by JAA. It has to be decided whether this databank will be the only source of questions. In this case Appendix 1 of Part-66 should be amended to require only the use of the databank.

3.Objective:

Standardisation.

4. Specific tasks and interface issues (Deliverables):

Development of an opinion, as appropriate, to change Appendix 1 of Part-66 and possible development of a question databank.

5. Working Methods (in addition to the applicable EASA procedures):

Drafting carried out by the Agency.

It is planned to subcontract the development of the question databank. An invitation to tender will be published in the second quarter 2005.

6. Time scale, milestones:

NPA to be published by June 2006.

Opinion to be issued by April 2007.
