WP 4: Competency Development:**On-site support to the
General Department of Civil Aviation (GDCA) of Armenia
for the development of an airworthiness inspector procedures manual**

As part of the technical activities related to the "WP4 - Competency Development" of the Eastern Partnership and Central Asia (EaP/CA) project, a five-day on-site support in the area of airworthiness was provided to the General Department of Civil Aviation of Armenia in Yerevan from 17 to 21 September 2018.

The activity was designed to support the GDCA in preparing/updating their own airworthiness procedures manual and to provide advice on the development of a training plan. The key topics encompassed administrative procedures, checklist development, inspection guides and quality control as well as qualification requirements including both basics and specific requirements.

This project is funded by the European Union
