WP 4: Competency Development:

Training on

“Air Operator and Approved Maintenance Organisation certification”

Within the technical activities related to “WP 4 - Competency development” of the Eastern Partnership and Central Asia Project (EaP/CA), an eight day training course was conducted in Bishkek, Kyrgyzstan from 28 August to 06 September 2018.

The objectives of the activity were to train the subject matter experts of GSI AIR to perform various certification tasks within the process of AOC or the AMO certification. Attendees should gain/confirm their competence to administer the certification process in the role of lead inspector and to perform each of the certification tasks in the role of certification team member - inspector AIR.

This project is funded by the European Union

Implemented by: EASA – European Aviation Safety Agency, an
Agency of the European Union <http://www.easa.europa.eu/>

and ECAC - European Civil Aviation Conference for aviation
security <http://www.ecac-ceac.org>

The training course objective was also to achieve a detailed understanding of the international ICAO requirements related to the certification and to be able to identify gaps in the national regulations as well as in the national CAA certification procedures that need to be remedied in order to achieve full compliance with international standards.

7 subject matter experts from the CAA of Kyrgyzstan, Tajikistan and Belarus attended the course.
