

EASA
European Aviation Safety Agency

Product Certification and Design Organisation Approval Workshop 2018

Feedback from Airlines side meeting

Dilek Senay YAZICI, Etihad Airways Engineering
Uğur ÇELİKAY, STM

31/10/2018

Your safety is our mission.

An agency of the European Union 

Main points of discussion

➤ Cabin Safety

- Flammability of seat parts other than cushions
- Approval of inflight crew rests
- NPA 2013-20

➤ Additive Manufacturing

- Certification aspects

➤ Operational Suitability Data

➤ Change Implementation

➤ Brexit

Actions identified

- Which actions did the group identify for each topic and who is the owner (EASA/industry)
 - More guidance required for OSD
 - Support from TC holders for repairs in areas affected by STC installation
 - W&B data from the repair design approver

What did work well

- What did work well?
 - Availability of experts to support discussion
 - Contributions from all members of group
 - Open discussion within the group
 - Focussed on issues relevant to Airlines
 - Discussion on upcoming rule changes (e.g. CS2X.853 and CS25.562)

Issues encountered

- What did not work well?
 - Agenda should be sent before the meeting day
 - Selection of presenters at beginning of meeting
